Report of Clinical Activities and Innovations

Current Licensure and Certification:

- 2007 Massachusetts Podiatric Medical License
- 2010 Certified in Public Health, National Board of Public Health Examiners
- 2011 Certified in Foot Surgery, American Board of Foot and Ankle Surgery
- 2013 Certified in Rearfoot and Ankle Surgery, American Board of Foot and Ankle Surgery

Clinical Innovations:

- Healthy Massachusetts Disease Management & Wellness: Focus on Diabetes (2007-2009) Participated as member of task force for the development and governance of clinical guidelines for diabetic foot screenings which were adopted by the Massachusetts Department of Public Health.
- Validation of the American College of Foot and Ankle Surgeons Scoring Scales (2011) Member of task force that validated clinical instrument for forefoot pathology.
- Development and Validation of the Foot Union Scoring Evaluation Tool (FUSSET) for Arthrodesis of Foot Structures (2015-2017) Participated with the design and analysis of the first radiographic instrument to assess osseous union of arthrodesis sites in the foot. The purpose of this project was to develop a systematic approach to assess arthrodesis that was reliable and valid regardless of training level (student, resident, attending) and was superior to subjective assessments. The FUSSET system will ultimately be applied to clinical trials as well in order to reduce bias and error.
